## JSM JTAG Adapter Cable

DA778 is a JTAG adapter cable that enables standard JTAG cables to be used with VadaTech JTAG Switch Module (JSM) or JSM-enabled products. The adapter breaks out the VadaTech proprietary JSM connector to a Xilinx or Altera/Intel FPGA JTAG header. It also includes a CFG DIP switch for use when the VadaTech JSM-enabled product does not have a CFG toggle switch on the front panel.
