Title: REGULATION COMPLIANCE STATEMENT		

REACH

Regulation (EC) 1907/2006

Statement Issue Date: March 2023

Products Covered: All products manufactured by Vadatech unless the product is specifically stated otherwise.

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals, EC 1907/2006) is the European Union's (EU) chemical substances regulatory framework. REACH requires Vadatech to provide customers with sufficient information on Substances of Very High Concern contained in the products in concentration above 0.1% weight by weight to allow safe use of the product.

To comply with this requirement, Vadatech certifies that the best of its knowledge all products that it manufactures and supplies do not contain substances listed on the Candidate List of Substances of Very High Concern, as updated on March 2023, in a concentration above 0.1% weight by weight. These substances of very high concern are listed on the "candidate list" that is published by the European Chemicals Agency (ECHA) and made available also on their website at <https://echa.europa.eu/candidate-list-table>

Vadatech will continue to monitor the regulatory requirements related to chemical substances and will update this document should the need arise.

Validation Method

Vadatech subscribes to a materials declaration service from Silicon Expert Technologies, Inc., which gathers declaration statements for electronic components and distributors. This service is used by Vadatech to validate the components used in our manufacturing process against various regulatory requirements, including REACH. This services will notify Vadatech of any changes in the compliance status of the components we use which will impact on the products we manufacture.

Additionally, we have mechanisms for employees, suppliers, and other interested parties to report violations of our Conflict Minerals Policy. The global compliance Conflict Minerals inquiry email address is: Conflict.Minerals@Vadatech.com
