VadaTech Announces a ATCA Rear Transition Module (RTM) for ATC128

Henderson, NV –August 9, 2023 – VadaTech, a leading manufacturer of integrated systems, embedded boards, enabling software and application-ready platforms, announces the ART128A.
The ART128A is an I/O expansion ATCA Rear Transition Module (ARTM) that is designed to mate with the ATC128 ATCA Carrier and provide high-bandwidth rear panel expansion.

The module provides two QSFP+ Ports (supporting 40GbE), four SFP+ Ports (supporting 10GbE), a Micro D-25 Port (multi USB 2.0), a Sub DB25 Port (audio), two Sub DB9 Ports (discrete I/O and dual multi-protocol serial Ports) and a Micro USB (IPMI). Please consult with VadaTech Sales to discuss ordering options.

About VadaTech

VadaTech provides innovative embedded computing solutions from board-level products, chassis-level platforms, to configurable application-ready systems. With a focus on AdvancedTCA, MicroTCA, VPX and PCIe solutions, the company offers unmatched product selection and expertise. A unique combination of electrical, mechanical, software, and system-level expertise, enables VadaTech to provide customized commercial or rugged computing solutions to meet the most complex customer requirements. VadaTech also offers specialized product solutions for VME, CompactPCI, and other architectures. A member of PICMG and VITA, VadaTech has headquarters, design and manufacturing facilities in Henderson, NV with design, support and sales offices in Europe and Asia Pacific.
